Head of the Lakes Corvair Association Newsletter

HOT AIR

**Head of the Lakes Corvair Association
Is Returning!!!**

The Head of The Lakes Corvair Association is being re-established in the twin Ports area. We are in the planning stages of re-establishing the Association and we need your help. It's time to get those Corvairs out of the garages and show them off. Long time Corvair enthusiasts Ron Thompson, Pete Prudden, and Ed Lampi are searching out all Corvair owners in the area who want to get involved and have some fun. We need to spread the word and reach all Corvair owners in the local area. Enclosed you will find a Membership application, and copy of our Constitution. As soon as Corvair Owners show enough interest, a meeting will be held at a future date. At that time we will discuss forming a chapter of CORSA. CORSA is a world-wide organization with 5,200 members and 125 local chapters worldwide. Founded in 1969, it is a large and enthusiastic group of Corvair Owners and one of the best single marquee clubs in the world. CORSA, a non-profit organization, was incorporated to satisfy the common needs of individuals interested in the preservation, restoration, and operation of the Corvair. CORSA's long range goal is to promote reproduction of parts and render technical assistance to increase your enjoyment of the Corvair, and to further the general public's appreciation of the car. Please sign up and lets get this party started!!

Head of the Lakes Corvair Association Newsletter

Why should I join?

By: Ron Thompson

I will try to give you some reasons to join our club. The first one I can think of is Fun. We want to make this a fun time for all to enjoy. We will be planning some cruises and maybe a few picnic's. We already have plans in the making to meet members from Corvair Minn from the Twin Cities area to meet in Hinckley . The more Corvairs we can get together in one place can only help to promote our beloved Corvairs. Maybe you have a mechanical problem with your Corvair and need help. Between Pete, Myself, and Ed we have many years of experience and can solve the best of problems. Let the Corvair Repair crew get your car running sweet. Also, if you need a part, chances are if we don't have it, we know where to get it. In the future as the club grows we will be having tune up days. Bring your Corvair and get it ready for the summer cruises. The more exposure we get the better. How many times have you heard " My dad had one of those" or "I learned to drive in one of those." That's half the fun of cruising is to hear all the Corvair stories. This club will be your club. We want to make it a fun time for all to enjoy. This will be a WE thing. Our success depends on what we make it, and our first goal is FUN!! I still belong to a Corvair club in Seattle Wa so I have a lot of ideas on things we can do. We had a very active club there and my hope is to use some of those ideas to promote our club here. So, on behalf of Ed, Myself and Pete WELCOME TO THE CLUB!!!
